

Even as...

Even as I am the shining light,
I am the longing to rest in the quiet blackness.
Even as I am the song of the waters flowing,
I am the deep, rich silence.
Even as I am a wish to dance endlessly,
I am the rocks whispering of a solid stillness.
Even as I gather with others,
I am welcomed quiet solitude.
Even as I crawl in the shadow spaces.
I am the still joy of the light.
Even as I am time passing,
I am the eternal now.
